

Network 1

Report:

Secure Software Development Lifecycle (S-SDLC):

Integrating network security protocols into the coding process

الاسم: فادي هني ودبيع قلبي

القسم: حاسبات

الفرقه الثانية

ID:152300113

CONTENT

- General introduction
- Introduction to Secure Software Development Lifecycle (S-SDLC)
- Overview of SDLC Phases and Security Mapping
- Network Security Protocols
- Common Network Security Protocols Used in Software
- Tools Supporting Secure Network Development
- Real-World Risks
- Challenges and Limitations
- Conclusion
- References

Important notes:

I have published the research on GitHub in both Word and PDF formats. I would be grateful if you could take the time to review it and share any feedback or suggestions for improvement.
